Dear Hiring Team,,

I am writing to express my interest in the Full Stack Developer position. I am a passionate Full Stack Developer with hands-on experience in building and deploying modern web applications.

I have worked as a freelance developer and successfully delivered **5+ end-to-end projects**, managing the complete development lifecycle from requirement analysis to deployment. My technical skills include **HTML, CSS, JavaScript, React.js, Node.js, Express.js, MongoDB, and MySQL**, along with practical exposure to **Docker, CI/CD pipelines**, and **basic cloud**.

Through my freelancing experience, I have developed strong problem-solving skills, client communication abilities, and a habit of writing clean, maintainable, and scalable code. I am comfortable working with REST APIs, authentication systems, responsive UI design, and following best practices such as **MVC architecture and Git-based version control**.

I am eager to contribute my skills to a growth-oriented organization, continuously learn new technologies, and work collaboratively to build impactful digital solutions.

Sincerely,

---

**Tejas Mehar**
